BEHAILU AND ALEM ARRIVE SAFELY AND HEALTHY BACK HOME!

We are pleased to report that Brother Behailu Abebe and his lovely wife Alem have completed their 3 month mission trip to Ethiopia and have arrived safely and healthy back at their home in Seattle. We are happy that our leading brethren, along with Alem, were able to prevent him from being overwhelmed with hundreds of daily visitors during their time there. He was able to accomplish many important ministries and preaching for congregations in the Addis Ababa area. The focus of Behailu's time was used to bring together leading brethren and church leaders from different areas for a seminar in Addis Ababa to counter the influence of the satellite TV preachers (the same ones on TV here) is having in all areas of Ethiopia. Those who attended will go throughout their home areas teaching the material and calling people back to following God's Truth only. They had a very successful trip.

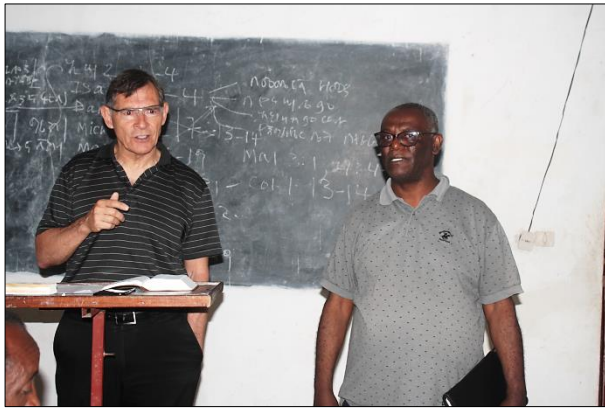

BEHAILU'S REPORT ON THE SUDANESE CONGREGATION IN ADDIS:

"Visiting the Sudanese transit Church* located in the edge of Addis Ababa is always inspirational and motivating. When we look back at all the men and women who were taught and trained to be leaders of the Church in that small congregation and now to see it's fruit, shows us that our dreams and vision has come to be true and how God was involved in it all. Current Sudanese Church leaders in Calgary, Canada, Australia, New Zealand, South Sudan, Uganda and the USA originated from the Kabana Church. Some of these men and women have become nurses, doctors, administrators in various non-governmental agencies, directors of Preaching Schools and many other leading positions in their respective areas where they were resettled by the U.N. Hundreds of souls have been reached because of men like Roger, Peter Tute, Daniel, James, Khor and John Jock. These men are still very faithful serving God wherever God has sent them and allowed them to live. The Word of God has continued to spread because of these men, and others, were trained and well equipped in the scripture. We thank all the brothers who came to Ethiopia from the USA to train and equip these men with the Word of God so they were able to entrust what they learned to other trusted men. (2 Tim. 2:2) We are blessed to see this happening in our lifetime."

(*The Kabana transit congregation first started meeting in the home of Brother Roger Talany in 1995. It is made up of Sudanese refugees to be resettled in the future.)

KEN PERRY, ELDER FROM FRESNO, VISITS AND TEACHES IN ETHIOPIA:

Upper left: Ken teaching with Moges interpreting at the Level One Santarrea School of Preaching. Upper right: Ken preaching at the Addis Ababa church. Left: Ken, standing left to right with Bro. Demere Chernet, Brothers Behailu, Alemayehu and Moges at the Addis congregation following a Sunday morning assembly. These four Ethiopian brethren have been at the core of growth during the last 40+ years. Demere became a member of the Lord's church in 1962 and Behailu in 1964. Ken is

becoming more involved in the Ethiopian ministry and it is very important he meets and gets to know those who have given their lives to make the work in Ethiopia what it is today. Ken traveled among the other areas in southern Ethiopia where the church has flourished and reached out to tens of thousands of people through the preaching of the gospel message and the great ministries focused on lifting up and changing the lives of people through training gospel preachers, education for the deaf and hearing children, providing pure clean water to drink and taking the gospel message to distant regions through World Bible School and shortwave radio broadcasts.

UPDATE ON THE WATER WELL DRILLING PROJECT:

Our drilling crew has completed 24 producing wells as of this writing. They have six more to go and hopefully by the time you receive this report, they will all be completed. Thousands of people are blessed now to have a source of pure clean water to drink. There have been two equipment breakdowns during this drilling process; hopefully the problems are behind us. Pray that the drilling success will continue.

We pray that God will continue to bless all of you who pray for and who provide the means to make this great work for God possible. Kevin and John Ed Clark
